

# Automatic Acronym List in L<sup>A</sup>T<sub>E</sub>X

LianTze Lim

August 15, 2019

**BBL** Basic Block

**SS** Shadow Stack

**CFG** Control-Flow Graph

**CFI** Control-Flow Integrity

## 1 Example

The `acronym` package automatically generates a list of acronyms. It's great for keeping track of your domain-knowledge and **TLA!** (**TLA!**). In this example we've put the acronym definitions in a separate `acro_list.tex` file, which you can edit via the project menu.
